A JOURNEY THROUGH SOUND

TINO (MLT) is a Malta-based DJ and producer moving between progressive house, melodic techno and techno. His musical foundations began with the violin; today he applies that sense of melody, tension and silence to the dancefloor.

Active in Malta's underground scene since 2010, he is known for long-form sets that build emotional momentum rather than jump between peaks. After stepping away in 2015, he returned with a more focused sound and BLK, an immersive concept that expands the performance beyond the booth.
